Overview

The curriculum in human environmental sciences enables students to integrate knowledge from all areas of the field and prepares them for employment or further study. This option is designed for those interested in careers in cooperative extension, government, human services, utility companies or an area of the communications field. Courses are selected in consultation with an advisor.

The purpose of this program is to give the student with specific career goals an opportunity to develop an innovative program of study with a focus on at least one area within the College. Each student majoring in human environmental sciences is expected to file a program of study prior to the completion of 100 hours and in accordance with the following guidelines:

- The proposed course of study must include 120 hours (including the statewide general studies requirements), The University of Alabama Core Curriculum requirements and the College of Human Environmental Sciences core requirements.
- The proposed course of study must give evidence that the student has built a cohesive structure of interrelated ideas around a focus within the College of Human Environmental Sciences and must include a minimum of 35 hours of coursework, 15 of which must be 300 or 400 level courses, offered by the College of Human Environmental Sciences.
- The proposal must demonstrate that the proposed plan of study could not be better served by an existing major program within the College.
- The proposal must indicate that the student has examined the consequences of the proposed program in relation to career goals and post-graduation plans.
