Faculty committees provide an opportunity for faculty to have input and provide leadership for the College of Human Environmental Sciences. Committees will have a general focus based on the goals established during the strategic planning process. A faculty chair has been appointed for each of the six goals and sub-committees are assigned under each goal. Sub-committees will review proposed action steps and adopt steps to be achieved for the academic year. Each committee will continue to serve for the academic year and will make a report to the faculty at the end of the academic year.

The strategic plan will be a living document and will be subject to revision each year based on feedback from the faculty.
## Quality Teaching

### Advising:

<table>
<thead>
<tr>
